Week by Week:

WEEK 1: The Foundations for Success

Learn what structure you need put in place to build your business on a solid foundation. In this orientation call we will be looking at the key components you need to dial in to make your business successful namely, you, your time and your money. We'll be looking at your physical environment, your mindset and what it takes to be unstoppable. Your business is an entity in and of itself – what is the energy you are offering through your business? What do you value? We'll dive in here to discover what is important to you, so your ideal clients know that you're the one for them!

WEEK 2: Creating your Vision

WHERE you are going? What is your big vision for the future? Even if it scares you, we need to have an idea of where we are going to be able to point our compass in that direction. This is all about DESIRE and PASSION which are a key focus if you want to develop a business that FEELS GOOD.

WEEK 3: Everything is energy!

We'll develop a daily practice that you'll absolutely love that will bring you boundless energy. This step alone will transform your life. To achieve at optimal levels, we need massive amounts of energy and we need to know how to create that for ourselves at the start of the day. This is all about the VIBRATION you are bringing and when we are offering our service it is the ENERGY you radiate that your clients are saying YES to. So, what is your vibe? We'll be making this a high priority as everything flows from this!

WEEK 4: Laser Coaching - What is holding you back?

On this call we'll dive in laser coaching where you have the opportunity to be coached individually and shift any blocks that are holding you back from taking action steps forward.

WEEK 5: Managing your time beautifully

If you don't know what to concentrate on first, you can end up wasting a LOT of time and the more time you waste the less profitable you become. In this session you'll learn how to reclaim your power back from time itself so you can have it work for you, not against you. Procrastination is fear in disguise. We'll blow it away through this call!

WEEK 6: Packaging your offer

A key component of becoming profitable quickly is having a high dollar value offer. We'll develop how to bring your offer together in such a way that your clients will love it because you are delivering what they need. This is crucial to your success and is a great opportunity to overcome any imposter syndrome!

WEEK 7: Knowing your customer like your best friend

You know your friends, right? The language they use, what they love, what they can't stand, what drives them. How well do you know your ideal client? This is important! How can you speak to your ideal clients or even inspire or motivate them to take action if you don't know them? We uncover the action steps and the plan so you can get to know your clients intimately and therefore attract and inspire them to work with you.

WEEK 8: Inspiring your clients through language

Once you get to know your clients you want to start the process of building a beautiful relationship. You'll learn how to reach your clients through the power of emotion. Why? Because people buy based off their emotions. We are always moving towards pleasure or away from pain. Learn how to use this in your copy to reach your clients on the heart level. You'll also learn what you are REALLY selling, and it may not be what you think!

WEEK 9: Laser coaching - Your Limiting Beliefs.

You do not want to miss these calls! Energy clearing is a powerful way to clear your limiting beliefs. We will be connecting to higher frequencies to clear away your limiting beliefs around what you can achieve. If you don't believe it's possible, it won't happen! This deep process will propel you forward faster than anything else.

WEEK 10: How do I price my services or offer?

This makes people...gulp. We'll explore how you should go about pricing your offers and what you should look for when it comes to constructing your price list. We'll also get clear on what NOT to look at and how NOT to "shrink yourself" to fit what you think people can afford. This is an internal process not and external one!

WEEK 11: Let's Get Visible!

Are you shy? Introverted? Find the idea of putting yourself out there enough to start your gag-reflex? This is the perfect opportunity to take your power back from your fear of being seen. We'll clear anywhere it feels like it just might kill you (!) and bring you back to feeling like you are bringing goodness into the world by sharing what you hold dear to your heart. This is all about feeling safe to share. There will be a lovely, wonderful visibility challenge to go with this to get you over this bump and to make it easy for you to share of yourself while making it SAFE.

WEEK 12: The Visibility Challenge

We'll come together and share how we have gone into uncharted waters to share our skills and talents. We'll look at what came up, where your fear and resistance was and how this can be a GOOD thing! You'll discover more about how to approach fear in your business and how you'll need to learn to do this continuously for exponential results! YES, you can do it and yes, you are that powerful! You'll get feedback on how you are coming across so you can improve your skills and focus on adding value to others.

WEEK 13: Where do I go?

We'll identify where your ideal clients are hanging out and how you can create the opportunity to get in front of them and start having those conversations. Instead of feeling like you have no clues you'll learn that your ideal clients will give you all the information you need to discover where they are and how you start cultivating those relationships with them.

WEEK 14: Tooting Your Own Horn

“Yikes! What? Do I have to?!” , you may be saying? Blowing your own trumpet is about understanding what makes you valuable. It’s about creating credibility, especially if you haven’t had any clients in your business yet. What makes you unique? Why should people choose you? Yip, this stuff can make us feel super self-conscious, but we’ll be approaching this in a fun and loving way and learn that your clients WANT to know this information about you! Feel like a fraud? This session will help clear that away!

WEEK 15: Money, money, money.

We’ll do an energy clearing on making it safe to ASK others for MONEY. Do you feel comfortable asking people to invest in you? Do you stand in the energy and value of what you do? Do you get those creeping feelings of “What am I doing? Who am I to ask people for money for something I created (insert here: made up)?”

Being in business will show you your money junk FAST! If you notice you are passionate about what you do but your energy drops when it comes to asking for the sale, then it’s time to clear up the fear and doubt that is holding you back from receiving MORE.

WEEK 16: The fine art of a beautiful sale

THIS IS YOUR GOLDEN TICKET. Learning what it takes to get comfortable with the sales process is imperative to being successful in your business. This is THE KEY component to being in business. If you’re able to convert a prospect into a client, then you are in business! If not, then you’re...just...not! We’ll walk through a step-by-step process and you’ll receive a script you can use for your clients which you can adjust to suit your specific industry.

WEEK 17: Practicing your offer.

Repetition is the mother of skill. We’ll take this opportunity to practice what we have learnt so far and work with each other to embody the sales process, so it becomes natural and fluid in the moment when you are on a call with your clients. You’ll have the support and encouragement of your buddies who are journeying with you and their honest feedback if they would actually buy from you. We also look at how to make your offer PROFITABLE and to understand what people are really looking for from you when they buy from you.

WEEK 18: Handling objections – oooh yeah baby.

This is gonna happen! So, know what to do! We’ll look at the most common objections in your sales process and how to handle them – they are often the same “I don’t have the money”, “I don’t have the time” or “I have to ask my partner or significant other”. How do you handle these effectively? We cover this and also go into the psychology of what is occurring so you can bring your clients to a place of confidence and have them say YES to you.

WEEK 19: You’re working with your client...what happens next?

How do you add more value to your clients? What does it take to continue to offer them more and ascend your client’s investment in you and what you offer? How do you turn your clients into your biggest fans and advocates? Learn what it takes to see your clients as sacred.

WEEK 20: Laser Coaching – the next evolution of you.

At this point we will be clearing your limiting beliefs around the next evolution of your business. What do you need to focus on next to move your business forward? Learn this critical skill so you can apply it at every stage in your business – evaluating what needs to be taken care of and creating a plan to make it happen.

WEEK 21: Eyeballs on the cash.

We go through reading financial accounts, what to look for so you can ensure your business is performing the way it should or how you can cut costs to increase your profit. A lot of folks don't love to look at their numbers, but money loves clarity and clarity requires being willing to see what's up. This call in and of itself is a game changer.

WEEK 22: Joyful Creation

How do we approach our business from a place of joy? What are you saying YES to that you don't actually love? We look at how you can operate your business more in line with your values and therefore enjoy it more.

WEEK 23: Pulling it all together

Business is an ongoing evolution. We'll do a review of what we have covered and where you were when you started to see how far you have come. We'll celebrate your successes and look at ways we can innovate your offers moving forward. We'll also plot the next steps so you can be sure of your action plan and have the certainty of what it takes to move into even more success!
